EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Klifton Kime on 8/17/2006.

The application has been amended as follows:

Cancel claims 1-11 and 23-26.

DETAILED ACTION

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/12/2006 has been entered.

Election/Restrictions

3. Claim 12 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 17 and 18, directed to the species of figures 3 and 14 (species II and VII respectively) are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

4. Claims 12 and 14-22 are allowed.

5. The following is an examiner's statement of reasons for allowance:

Independent claims 12 and 20 have been amended to include the limitation that the second illumination light has a peak wavelength between a first edge wavelength and a second edge wavelength of the wave combining element (see the specific claim language). This specific relationship between the peak wavelength of the second illumination light and the wave combining unit along with all the other limitations of the claims was not found in the prior art and accordingly claims 12 and 20 are allowed.

Claims 14-19, 21, and 22 are dependent on either claim 12 or 20 directly or indirectly and are therefore also allowable due to at least their dependency on the allowed independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew T. Sever whose telephone number is 571-272-2128. The examiner can normally be reached on 8:30-5:00.
